Splendid Progress This Week In Harvesting Operations Over 75 Per Cent Cut

Perfect weather during the week has permitted rapid progress to be made with wheat cutting and many farmers will be through by Saturday night, an occasional one having finished already. Samples of wheat brought into town show exceptional color and a fine, plump sample. Threshing will start on Monday in some places but most of the outfits will be a day or two later. Up to the present Champion has escaped any damage from hail and the season is now fairly advanced beyond the regular hail period. The elevators are all in readiness to handle the wheat when it makes its appearance on Monday.

In the cutting operation four pounds of twine per acre has not been uncommon in good, clean wheat. The filling process has been quite satisfactory so that it is not unlikely some real yields will be recorded for 1926.

School Opens Monday, Aug. 30

The Champion Consolidated School opens for the term August 30 with the following staff in charge: Miss Tory, Miss Woodhull, Miss Read, Miss Baetley B.A., and H.J. Hofford M.A., Principal.

Parents and guardians should make a special effort to see that their children are registered on the opening day. Students who drift in late are seriously handicapped for the balance of the year. Students of the high school are requested to present their departmental documents on the opening day if at all convenient.

Flower Shows Are Popular

Horticultural shows are the order of the day in Alberta now. During the past week the Edmonton show was held, with 3000 people in attendance, and some of the finest displays of flowers ever seen. Camrose show, noted for being one of the best in the province, was also held this week, and Calgary show, always a big affair, is scheduled for the coming week.

California Wants Text Books Right

Requests for fall information concerning Alberta with suitable illustrations have been received by the provincial publicity bureau from the California council of education, which is revising its geographical text book, and wishes to include a generous reference to Alberta. This is one of many indications received recently that greater attention is being paid to securing information about the Canadian west than ever before by the people across the line.

Mr. and Mrs. Frank Anderson of Calgary were visitors here this week. Frank was showing a Cleveland sedan, for which car they are distributors, and his description of its merits was almost irresistible. An ordinary page ad in the Saturday Evening Post couldn't begin to convey the information about a car Frank carries with him.

Mrs. Sinclair, of Vulcan, is the guest of Mrs. W. E. Crawford.

Labor Day comes on Monday, September 6th.

NOTES AND COMMENT.

The Prosperity League of Canada is a very busy organization these days, and the amount of literature they are circulating would indicate that there is considerable spirit behind their laudable efforts. Their idea of prosperity is a protective tariff on all manufactured goods high enough to prevent importations. They risk the assurance that prices would not go up as a consequence; it would simply mean that only Canadian goods would be used in Canada. This branch of the Manufacturers' Association must assume their western audience has little intelligence. The fact that lower duties mean lower prices has been experienced too often here to let the plausible gentlemen of the Prosperity League get away with such bungling. Likewise, a thirty-five per cent duty on agricultural implements failed to force the use of Canadian products, but it increased the price to the Canadian consumer. The automobile industry, which was to have been ruined by the lower tariff, is busier and more prosperous than ever and is employing more men than before the tariff was lowered, and the same results would accrue to other industries under the same treatment. Only the necessity of revenue justifies the present height of the tariff, and consumers pay more for goods to produce this revenue. The originator of the national policy of protection claimed it was to foster infant industries and would be abandoned when these industries were on their feet. At the present time, however, increased duties simply permit capital, largely from the United States, to further exploit the Canadian consumer.

Vulcan is out again for a municipal hospital. The year since the scheme was first presented has not been a fortunate one to induce people to change their minds. A single instance where existing facilities have not been fully adequate has not arisen, as far as can be learned, and the entire hospital expenditure for this district for cases which could have been treated at Vulcan has been but a small fraction of the proposed levy for a hospital. It is very likely that much of the rural support in the immediate vicinity of the proposed location of the municipal hospital will have disappeared since the recent vote. The more information secured in this matter, the greater the hesitation in increasing land taxes to the extent necessary to make the scheme feasible.

As an exhibition of innate cussedness, coupled with the lowest type of sneak thieving, the stripping of binders which occurred in this vicinity on Sunday would be hard to beat. This was not an individual stealing parts for his binder which perhaps, he had not the money to buy, because parts were confiscated and everything in the way of tools removed. This is an example of what might be called "dirty" theft, and it will be a pity if the perpetrator gets away with it. It is criminals of this kind who should receive all the lashes the law would sanction.

It was about nine o'clock at night. A man dashed into the doctor's office in a highly nervous condition and explained to the doctor that he had been in a very bad state all day.

The doctor, in his best professional manner, asked if anything had happened to shock or upset his nerves.

"No," the man answered, "unless it

The patient's face fell, and he said, "Why, Doctor, the blamed fool forgot to sign his name."

Will Try Again
For Hospital

(Vulcan Advocate)

The Advocate has had an interesting interview with the Municipal Hospital question, which provides for the establishment of a hospital, will again be submitted for the consideration of the taxpayers who might be situated within the selected area. It is said also that those who voted against the last scheme will again be given opportunity to consider the matter, and if there be portions pronounced in opposition, it is proposed to eliminate the same before the ballot is taken. In the hospital plan it is not intended to force any considerable number into the scheme, but rather, as far as is possible, to leave them out. Mayor Butchart made a recent trip to Edmonton to consult the Provincial Governmental hospital authorities upon the subject, and as soon as possible details in the matter will be given to the public.

Weeds a Big
National Problem

(Experimental Farms Note.)

Travelling through Canada in summer one is struck by the prevalence and diversity of weeds. Whole districts, certainly fields, can be described as blue, yellow or green, the green too often, unfortunately, of couch grass rather than of clean, vigorously growing crops. The occurrence, here and there, of exceptions to the rule, simply demonstrates the possibility of better things.

Losses to farmers and to Canada, totalling many millions of dollars annually, are represented by this visit of solar. Any means, however partial, of reducing such waste must therefore command respect.

Much of Eastern Canada is still only for a forest crop. Fire and axe have exposed to the incursion of weeds millions of acres that can only be a menace to adjoining lands until restored, by government or municipal action largely, to its proper use.

In large additional areas the farming can only be described as very low pressure cropping indeed. The land lies in hay or pasture chiefly, and in a year or two from the plow, produces herbage unmarketable as hay. Until brought under a more intensive agriculture, or correct permanent pasture management, returns from such farms will be meager.

In more advanced farming districts there is a noticeable decrease of such conspicuously, but readily (under cultivation) suppressed weeds as buttercup, oxeye daisy, and the hawkweeds. In their place, according to locality, appear various mustards, thistles and others. Certain weeds are more less indicative of over reliance on grain crops, others prevail in clover seed growing districts, fruit or trucking lands, etc. Perennial sow thistle invades the richer soils, especially if

CHAPTER XII.—(Continued)
 Still, right with herself as much as she might, nothing seemed to matter so much as John. She had intended to spend most of her time thinking her old things over, the old folks, the old home, the old days, the old fun, but she had no idea of sleep. There he was, bits of time for sleep when she was thoroughly convinced she wasn't asleep and dreaming anyway. She had wanted just to pack and talk to George, but she had also wanted to vague things that she planned to do for him into a definite program. This last idea George dismissed at once with a pat on the back. "Well, you know I'm a writer," he said. "I like to think up stories about myself." Joanna had no idea what to do, but she had found a great friend who will show how—*if*—men who will help me."

"I have the most disconcerting way of not knowing what you want to say," "Eugenie protested. She spoke shortly, with none of the nervousness in her voice that had been there a moment before. Joanna realized she could question no evasions with that grown-up manner.

"But have they?" Eugenie interrupted. "Doesn't he have some way of getting his money?"

"I don't know how he does it, but I don't think he makes him pay for it."

Joanna was not in the mood to discuss such things, but she was curious, who had ordered her to call him "Buddy," without further ado, or Yvonne, whose career from Cairo to London and America was as well known to Joanna as she was to any old radio. She was sure, though, that Brad's husband and sister probably knew of her. Instead, she crossed examined George patiently about John.

With little success, George was detained, her racing eyes engrossed in some new book or magazine, her fingers creeping out in the sheer or the trim or the drape of one of the new things hanging about the room. "He could have wanted to see you and square the bill, and that held him up to tomorrow," was all that George would vouchsafe.

With the morning Joanna had decided. She sent to John a brief letter, not that cost her a cent, and as usual, everything was all right. They wouldn't talk about that night when he accused her. But he must come to her, Yvonne thought. That's what she did, working in the office of the firm where he was working up to his career, she went to the bank.

The uniformed doorman remembered her. In his manner there was none of the shrewdness which he would have shown in any other of the bank's customers—*even* the most important, at the announcement that it was the Chairman of the Board himself whom the caller wished to see. He had Joanna follow him through the muffled corridors, past the muffled shadows, past executives, rushing and other important functions, from whom the girl caught glances of interest. It reached the entire institution to receive her, Yvonne thought.

Eugenie was to receive her, too. Joanna saw a great gentleness beneath the grave, austere exterior of the man whose harshness was a tradition that even shop girls knew. In the

Bandon drew her to him, until she stood quite close. It was the prelude to a kiss.

"Just a little fun, as you call it. But you're a big of pleasure with the money you have. Want it paid off after a while?"

"Perhaps. I don't know. I'm a little bit afraid. I don't know much about getting you seen. So I want to know. It's a lot of responsibility somebody has put onto my shoulders, isn't it?"

For a time he didn't answer. When you're a good girl, about?" "No, I'm not confident going to her."

"Don't suppose you know her? Miss Contant, Yvonne Contant. She's very famous, you know, and has heaps of money of her own. Men are always in love with her. She's thirteen years old."

John, Joanna thought, was something cold in his voice. "Yes, I know her. I fancy almost everyone does. Let's see—is she divorced now?"

"Divorced. But that doesn't make any difference, does it?"

"Not the slightest." He spoke briefly. She was sure now that he had gone crazy. She decided not to point out that he had been talking to his banker. If took it upon myself to protect your interests—even if those interests were at the moment a mere young man. I offended I am sorry. You are a good boy, but the bank—

"Your friend and mine, Braden, was deeply concerned by your report of the young man's understanding. He gave me a few more details, and I was shocked to see that circumstance as your banker. I took it upon myself to protect your interests—even if those interests were at the moment a mere young man. I offend I am sorry. You are a good boy, but the bank—

"I wanted to tell you how happy it made me!" Joanna exclaimed. The sudden change in him distressed her. He had gone to away from her, and she had seen him as very close, very close to her in some unfathomable way. "I would not take the money—none of it! If it should cost me the thing I want John to think of me!"

She was gazing at him too earnestly not to see. His hardness vanished from his face and his eyes as she was at the meeting of shadow. His fingers and toes, too, were now peacefully and tightly toed with it, as she had observed him doing during her first visit to him. When he spoke again it was as if she were not there, as if he spoke in a memory. "There, there are times when memory doesn't count. So long as youth knows this, everything's all right."

John nodded to him quickly, silently. Then he turned him around, so that he was looking his hand and found one in the other of them. But she looked for the life of her, explained what? In a instant she was telling John—of their schooldays and of their coming together, and in the city where she was born, her mother and he, with neither fortune nor chance, began to build for his career; of her hope in him and of their plans, plans that had all gone wrong.

"I have found a friend who will show me how—I mean who will help me."

"I have the most disconcerting way of not knowing what you want to say," "Eugenie protested.

"I have made up my mind what to do," she told him when she had sought some time for opening his folder to find "I can't afford just to go along. I have found a great friend who will show me how—I mean who will help me."

NO PROSPECT OF SETTLEMENT OF MINERS' STRIKE

London.—When the representatives of the miners and coal owners met earlier this month, the result which was hoped might bring a settlement to the long standing controversy, it was found that the parties to the dispute were as far from an agreement as they had been days of the struggle.

The owners, who are the Canadian Coal Council and the Canadian Fuel Company, and the miners being represented by the eight-hour legislation, which the miners just as firmly are determined to resist. On their part the miners will agree to no consideration of the wages unless after steps are taken to reorganize the industry.

What the next step will be is still unknown, but an announcement was made which indicates that Premier Baldwin had retired from any further participation in the negotiations.

For some time the premier's supporters have been urging upon him the need of relaxation after the severest strain of the last period, notwithstanding the strenuous efforts in the coal strike, but Mr. Baldwin had postponed his vacation so that he might be on hand if wanted during recess. Now it is officially announced he has decided to start at the end of the week for Aylesford, Hants, and according to his present plan he will be away for three weeks.

FEAR LARGE GOLD SHIPMENTS

BRITAIN SHOULD TAKE MEASURES TO PROTECT EXCHANGE SAY BANKERS

New York.—The bankers of New York, Boston, and Philadelphia have issued a statement from the United States this year was reported to a dispatch from San Francisco to Dow Jones and Company, stating that approximately \$30,000,000 in gold had arrived there from London, and that for the account of the Bank of England, as the Federal Reserve Bank of New York.

The bullion is reported to be mostly in British sovereigns, and was shipped to the San Francisco mint.

The announcement as to the purpose made public is that the raid is "in settlement of international balances."

It is the opinion of many foreign exchange experts that the Bank of England takes special measures to support the exchange the annual sum will see a flow of gold from London to New York as the season of the greatest pressure on sterling is just beginning. The shipments from Australia, therefore, may be established as a reserve against this pressure.

The gold shipments are not, in the minds of those bankers, warranted by present exchange conditions.

FIRE IN SWEDISH MINE

SEVERAL OF LARGEST BUILDINGS DESTROYED AT KIRUNA

Stockholm.—The world's most northerly mining centre, Kiruna, located far above the Arctic circle in Swedish Lapland, has been swept by fire. Several of the community's largest buildings were destroyed, and 250 men killed, and 250,000 damage done.

The destruction was increased by the explosion of a deposit of dynamite, kept for blasting of Kramvare, the mountain nearby, which consists of iron ore.

LADY STRATHCONA DEAD

Was Daughter of Former High Commissioner for Canada

London.—Lady Strathcona and Mount Royal, daughter of the late Lord Strathcona, a former high commissioner for Canada, died in her 72nd year.

Lady Strathcona was Mrs. Margaret C. Howard, receiving her title on the death of her father in London in 1914. Her father, Alexander Smith, was related to the baron; played a prominent part in Canada, for many years, during the last century, becoming a member of parliament, the Canadian House of Commons and later being appointed high commissioner in Britain, for the dominion.

DELAY IN THE MAIRS

LETTER TAKES 35 YEARS TO TRAVEL 200 MILES

Toronto.—Thirty-five years ago a friend of the Rev. T. R. Marshall, of the pastor of a local Congregational Church, wrote to her from Glen Row, Lambton County, Ontario. The letter has just arrived here, having taken 35 years to reach less than 200 miles. Evidently it had been given to the post office for the greater part of that time. Stamped on the back of the envelope was the date "October 22, 31," and on the back "Toronto, Oct. 27, '91." Mrs. Marshall was attending the Toronto normal school at that time.

SAYS U. S. IS LEADING WORLD INTO A NEW ERA

HOBNOB ISLAND, N.C.—Belief that the United States is leading the world into a new and better era, bringing spiritual rebirth" and thus maintaining peace—for which all men in all countries are truly longing today, was expressed by Sir Ernest Howard, British ambassador to the United States.

He said he was the speaker at the anniversary of the independence of Virginia, first white child born in the American colony.

The speaker noted that I think America of today is greater than ever. I think the lives of men are more than mere goods and that peace and contentment are more than mere wealth.

America's great contribution to the world's progress is its human policy in industry and agriculture. We have learned the gospel of high wages, it has been called, and you have applied it and showed the world that it works," Sir Ernest said. The ultimate development of this country will be acted out by Sir Ernest as "a secondary matter."

London.—Encountering a heavy fog along the English coast, a big French passenger plane on a flight from Paris to London, met disaster near

The primary cause of the disaster is presumed to have been engine trouble, for upon investigation it failed to find the bearings of the big machine severed suddenly and dropped swiftly. It struck the top of a barn.

FORM A BRITISH PEACE LEAGUE TO END ALL STRIKES

Duke of York Among Number Who Met in London

London.—The Duke of York, the Prince of Wales, and the Duke of Gloucester, with the Duke of York and the Earl of Longford among their number, gathered in London recently.

It was one of the rare gatherings of British nobility to be held in the capital since the days of the Duke of Wellington.

The leading spirit on the Labor side is J. Havecock Wilson, veteran president of the National Seafarers' Union.

Sir George Grey, Labor leader, and

Mr. J. G. Hart, Labourer, are mentioned as the chairmen, and Frank Hodges, former secretary of the British Miners' Federation, for the side of the employers.

Both sides are loyal to Great Britain, the sanctity of contracts, the right to work and the stamping out of the doctrine of class war.

It is considered that both Wilson and Hodges are now discredited among the rank and file of British trade unions, since both are regarded as standing too much to the right.

The leading spirit on the Labor side is J. Havecock Wilson, veteran president of the National Seafarers' Union.

In view of the fact that the Duke of York and the Earl of Longford are the heads of the club formed some years ago by Lord Lansdale, Membership of the club is confined to responsible skilled workers who have sought after his name before the eyes of citizens.

The King, who had more than a score of them, is the honorary president of the club.

COMPETITORS OF LEAGUE

PARTS AMONG EUROPEAN COUNTRIES ARE SECOND LINE OF DEFENCE

Williamson, May 28.—Regional agreements being made between nations in Europe representing a combination of the instance of power indicated by forming a military alliance, the formation of the League of Nations, Sir Edward Peacock, controller of the Royal Hungarian legion, told the Institute of

He represented these agreements as being made to "check" the League of Nations. Referring to the agreement known as "The Entente" between Czechoslovakia, Jugoslavia and Rumania against Hungary, Peacock said the latter country had been included in the alliance because it was individually superior to Hungary in military strength.

The chief merit that I think America has to offer to the world is that I think the lives of men are more than mere goods and that peace and contentment are more than mere wealth.

America's great contribution to the world's progress is its human policy in industry and agriculture.
